BLUETOOTH® | 34" AMPLIFIED SOUNDBAR SYSTEM

RECOIL SERIES

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation of the device.

This transmitter must not be co-located or operated in conjunction with any other antennas or transmitter. The Bluetooth® device cannot be controlled or repaired by user. The equipment complies with FCC Radiation Exposure limits set forth for an uncontrolled environment. For body-worn operation, the separation between the radiator and the user’s body shall be no less than 20 cm (7.9"").

NOTE: This device is designed and approved for use only in the United States of America. Use outside of the United States is at the user’s own risk. This device is not approved for sale or distribution outside of the United States of America.

If the screw for the ground wire loosens or falls out, it could result in a poor electrical connection. Ensure that the ground wire is properly connected and secured without inappropriate adhesives that may cause overheating or a short circuit to the ground.
